President's and Director's Message

"IT IS NOT ONLY FOR WHAT WE DO THAT WE ARE HELD RESPONSIBLE BUT ALSO FOR WHAT WE DO NOT DO"

Moliere Jean-Baptiste Poquelin (1622-1673)

ELENI TSINALIS
PRESIDENT, HSSQ

ELENI FAKOTAKIS – KOLAITIS DIRECTOR, HSSQ

Dear Friends (Community, partners, clients, volunteers and employees):

As you know, with very little financial support, the volunteers and employees of Hellenic Social Services of the Hellenic Community of Greater Montreal help to put smiles on people's faces as through our services they help many hundreds of people a year! We provide information, referral, accompaniment and a variety of support services. Our weekly food bank alone, distributed approximately 6000 grocery bags of food this year to the poor and we greatly improved the operations of it. More specifically, our employees inform, explain, facilitate, refer, they help the client obtain the services that they deserve and require. Our workers do so much with very little and there is still much more that we must do.

I assure you that our efforts are being tracked and measured, therefore we can see our results, and we are doing well in terms of service quality. Our employees know that we expect nothing but their best efforts.

<u>Our Vision</u>: Our vision which is represented by our logo, is inspired by and based on the **personalization principal**. It means putting the individual at the center of the process of identifying their needs and making informed choices, in other words putting the individual first. We enable them to access universal services such as adapted transport, leisure, education, affordable housing, health and opportunities for employment regardless of age, origin, or ability. ITS ABOUT OFFERING A CLIENT FOCUSED, COURTEOUS, CARING SERVICE.

President's and Director's Message cont.

One of our major commitments is to help eliminate SENIOR MISTREATMENT and to increasingly improve quality of life as age increases. Our elderly are in need of more services in their homes so they can be in their familiar surroundings for as long as possible. We also have to look at alternative living arrangements for the elderly such as group homes near stores, churches and to be in an attractive, safe neighborhood with access to green spaces or neighborhood parks.

We would like the community's support in building a residence with services to help the elderly in their day to day functioning. We are presently looking into making this dream a reality because our elderly deserve to grow old with dignity and to be exposed mostly to their culture and to the food and language that they are used to. This will no doubt add to their sense of security and maintain their dignity.

Finally, we have to organize DAY CENTERS within our buildings, our churches so that our elderly and people with special needs can continue to learn in a social, secure and familiar environment.

It is no secret though, and quite unfortunate that we receive way below the average of most other groups funded by the government and we have been a partner organization for many years. This year again, we managed to maintain most of our regular activities in spite of the unfortunate cut backs to our personnel. We were able to hire new people with the help of Emploi Québec. The training and re-training of these new people set the service back on a large scale with respect to seeking out new funding and new activities. Also the fact that our salaries are not competitive, we risk hiring people with insufficient expertise, who therefore require greater consultation and supervision from the Director. <u>APPLYING FOR PROJECTS ALONE WILL NOT GUARNATEE THAT OUR EMPLOYEES WILL BE PAID DECENT SALARIES</u>. OR THAT WE WILL MAKE THEIR POSITIONS PERMANENT ONES. WE NEED SUBSTANTIAL AND RECURRING OPERATIONAL FUNDING!!

Efforts are still being made on a regular basis to acquire and secure a higher annual funding for our operations, from the three Agences, Centraide, CSSS de la Montagne and the various relevant ministries, such as Ministère de la Santé. However we are still being told that there is no money. We have joined forces with other community groups who are part of regroupements who have similar problems with respect to lack of operational funding hoping this will help to unblock funding faster. We have participated in manifestations urging the government for more money. What is promising is that our SAB support (Soutien au bénévolat) from the local politician discretionary funds has increased from an average of 2000\$ yearly to approximately 7000\$ annually. An indication that our efforts are being noticed and appreciated. However, I hope that this amount of support increases and does not decrease in the next fiscal year because of the new provincial government, more follow up is required here.

We are continuing with the priorities that we outlined in 2010 and putting more effort in the above mentioned funding efforts: In addition we have put much more time into developing and applying for funding for a residence for the elderly with three hours of care daily (RI). We are also applying for home care support in the form of natural care giver support. We must continue also with our private fundraising, one on one soliciation as it is the most cost effective method of fundraising.

More support is needed from individuals, Greek organizations & associations to collaborate with us on these upcoming important projects. As they help public institutions, they can also hold a fundraiser for SSHQ, since we primarily help the members and the elderly of our own ethnic community. In summary, our service remains in desperate need of financial aid in order to continue to appropriately serve all the clients that require our help. IN ORDER TO REALISE ALL THE PROJECTS DESCRIBED EARLIER, FOR OUR PARIKIA, WE NEED TO RAISE AT LEAST 5000\$ WEEKLY. PLEASE CONSIDER MAKING A DONATION AT LEAST ONCE A YEAR, AND HELP US TO FIND OTHERS FROM YOUR CONTACTS WHO CAN ALSO SUPPORT OUR PROJECTS.

THANK-YOU!

Letter from Oksana Shania Andruchiw

March 15 2013

Eleni Fakotakis Director, Hellenic Social Services

Hello Eleni,

I wanted to take the time to let you know how much benefit I have received in the past 2 years volunteering at the Hellenic Social Services of Quebec.

I first came as a client for the Food Bank that you run on Tuesdays and saw the good atmosphere and attitude of the people working here. I asked if you needed any volunteers and originally started working on Tuesday mornings at the food bank and then became a worker in the office. I am on Quebec disability pension and due to my illness could not work full time, and have limited mobility yet I did have a lot of free time on my hands and wanted to do something that would benefit other people.

Since working here I have not only benefited in doing good for people, but I have also felt useful and needed. I have dealt with many elderly people who have little or no family members to assist them. The gratitude they express for the help we can offer them is heartwarming. Living alone or with a disability can make a person feel depressed or of little use, but I have a positive attitude towards my illness and towards life in general and this is in a large part due to my work here at the Social Services.

As well I have learned of the many services that are offered by various organizations and the government to assist people in need. I have also felt a good deal of satisfaction in helping people who are financially in a difficult situation, people going through a personal crisis and in some cases just in need of someone to listen to them. The days I come in and work are some of my best days as i go home feeling useful and satisfied that I have been of service to others and have been able to help even in a small way.

Thank you for the privilege of working with you and I hope to be part of the Social Services team for a long time.

Sincerely, Oksana Andruchiw Volunteer, Hellenic Social Services of Québec
